Professional Summary

Data Entry Specialist with nearly 3 years of experience and a Bachelor's degree in Mathematics from the College of Science – Princess Nourah bint Abdulrahman University. Experienced in data entry, data cleaning, and data analysis, in addition to a graduation project in cryptography using abstract algebra with a practical implementation in Python. Skilled in data analysis and dashboard development using Power BI, as well as data processing using Excel. Capable of identifying patterns and transforming data into measurable KPIs. Seeking to further develop a career in data analysis and contribute to data-driven decision making.

Education

- **Bachelor's Degree in Mathematics** – College of Science | Princess Nourah bint Abdulrahman University – Riyadh | 2025

Professional Experience

Data Entry Specialist | Akram Company – Riyadh | 08/2021 – 06/2024

- Entered data into digital systems daily with high accuracy and quality standards
- Reviewed data and verified its accuracy and completeness before approval
- Cleaned data and handled missing or duplicated values to ensure analysis readiness
- Organized and archived electronic databases for easy access and retrieval
- Reduced data entry errors by approximately 15% by improving review and validation methods
- Increased data entry efficiency by around 20% while maintaining accuracy levels
- Contributed to organizing more than 5,000 records, improving search and retrieval processes
- Improved data quality used in reports, enhancing analysis accuracy
- Prepared datasets for Power BI dashboards, improving KPI visualization
- Reduced data retrieval time by 10% through improved file structuring

Training Courses

- Python and Data Analysis Course – QAFZA – 2026
- SQL 101 – Satr Platform | Tuwaiq Academy – 2026
- Talk From Data to Decision with MaxCompute – Tuwaiq Academy – 2026
- Introduction to Business Analysis – Tuwaiq Academy – 2026
- Introduction to Data Analysis – Tuwaiq Academy -2026
- Microsoft Power BI Course – QAFZA – 2026
- Excel Advanced Course – QAFZA – 2026
- Microsoft Azure Course – QAFZA – 2026
- Introduction to Data Analysis using Power BI – Princess Nourah University – 2025
- Mathematics for Machine Learning: Linear Algebra – Imperial College London – 2025
- Mathematics for Machine Learning: Multivariable Calculus – Imperial College London – 2025
- Mathematics for Machine Learning: Principal Component Analysis – Imperial College London – 2025
- Negotiation Skills – Princess Nourah University – 2025
- Cooperative Training – Princess Nourah University – 2024
- Excel Course – Tuwaiq Academy – 2022
- Future of Work Basics – Misk Foundation – 2021
- Skills Development Program – Arq Educational Summer Camp – Princess Nourah University | 2021

Projects

- **Power BI Dashboards – 2026**
Data cleaning and transformation using Power Query, building simple data models, designing dashboards and KPIs, and analyzing data to extract patterns and trends.
- **Graduation Project – Cryptography using Algebraic Structures – 2025**
Mathematical analysis of cryptographic systems (RSA and NTRU), building encryption and decryption models using Python, comparing algorithms in terms of efficiency and security, preparing a full research report, and achieving a high score.

Volunteer Activities

- **Member – Creative Activities Team**
Contributed to event organization and teamwork, improving communication and time management skills

Skills

Soft Skills: Problem solving – Critical thinking – Teamwork – Time management – Attention to detail

Practical Skills: Data analysis – Data cleaning – Report preparation – Trend analysis – KPI development

Technical Skills: Power BI – Microsoft Excel (Pivot Tables, Data Cleaning) – Python – Power Query – Microsoft Office – SQL (Structured Query Language) – Databases – Data Visualization – Data Modeling – Exploratory Data Analysis

Languages

- **Arabic:** Native | **English:** Intermediate
